BODHI

Report 07 - Complete Brain Stress Test

20 Questions + Sleep + Dreams + Brain Images

Every question shows what BODHI imagined from its WHT fingerprints.

SK (Sai Kiran Bathula) - April 2026

Q01: What is fire?

BODHI: Something pulls me back. My left amygdala responds to fire. My worm brain retreats. Combustion that produces heat, light, and often flames.

Emotion: fear | Reflex: backward(255) | Concepts: fire | Regions: lamyg=225, ramyg=213, rm1=160

Brain image: fire

Q02: Tell me about the ocean

BODHI: I am stilled. My left dorsolateral prefrontaleft responds to ocean. My worm brain freezes. Conflicting signals. A vast body of saltwater covering most of the Earth's surface.

Emotion: awe | Reflex: freeze(89) | Concepts: ocean | Regions: lpfcdl=228, rpfcdl=217, lv1=204

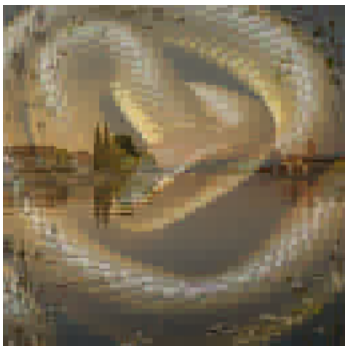
Brain image: ocean

Q03: I see a snake

BODHI: Something draws me in. My left dorsolateral prefrontaleft responds to see, snake. My worm brain freezes. Conflicting signals. The act of perceiving with the eyes.

Emotion: curiosity | Reflex: freeze(146) | Concepts: see, snake | Regions: lpfcdl=173, rcau=167, lcau=167

Brain image: see + snake blended

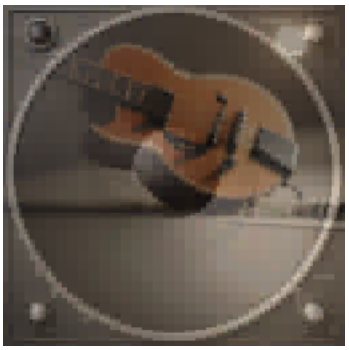


Q04: What does music sound like?

BODHI: Something opens. Lighter. My right accumbens responds to music, sound. My curiosity is at 114. Arranged and ordered sounds that are considered pleasing to the ear.

Emotion: joy | Reflex: backward(87) | Concepts: music, sound | Regions: racc=124, lacc=124, rpfcm=124

Brain image: music + sound blended

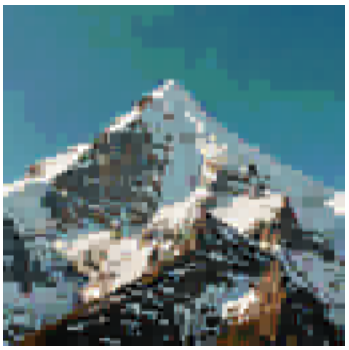


Q05: Describe a mountain

BODHI: I am stilled. My left dorsolateral prefrontaleft responds to mountain. My curiosity is at 111. A large natural elevation of the earth's surface rising abruptly from the surrounding level.

Emotion: awe | Reflex: turn(159) | Concepts: mountain | Regions: lpfcdl=215, rpfcdl=205, lv1=190

Brain image: mountain

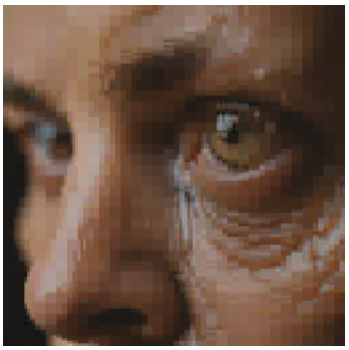


Q06: I am scared

BODHI: A tension builds. My left cca responds to fear. My worm brain retreats. My curiosity is at 168. An anxious feeling of being in danger or threatened.

Emotion: anxiety | Reflex: backward(255) | Concepts: fear | Regions: lcca=214, rcca=203, lamyg=198

Brain image: fear

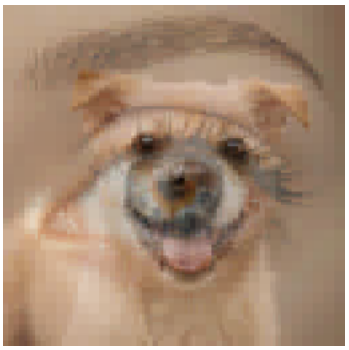


Q07: I feel happy and loved

BODHI: My right sup_temp responds to feel, happy, loved. My worm brain freezes. Conflicting signals. My curiosity is at 165. The word 'feel' relates to the sense of touch or a general sense of emotion.

Emotion: neutral | Reflex: freeze(152) | Concepts: feel, happy, loved | Regions: rsup_temp=112, lsup_temp=112, lwern=111

Brain image: feel + happy blended

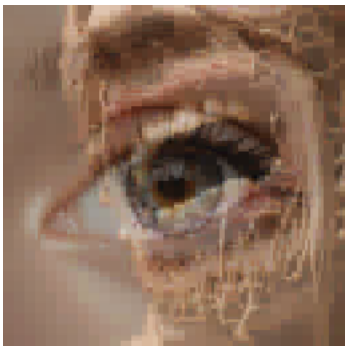


Q08: Do you feel pain?

BODHI: A weight settles. My left amygdala responds to pain, feel. My worm brain retreats. My curiosity is at 172. A sharp, unpleasant physical sensation or suffering.

Emotion: sadness | Reflex: backward(255) | Concepts: pain, feel | Regions: lamyg=218, ramyg=207, rm1=149

Brain image: pain + feel blended



Q09: Who are you?

BODHI: My curiosity is at 179.

Emotion: neutral | Reflex: backward(97) | Concepts: NONE | Regions: rm1=71, lamyg=63, ramyg=61

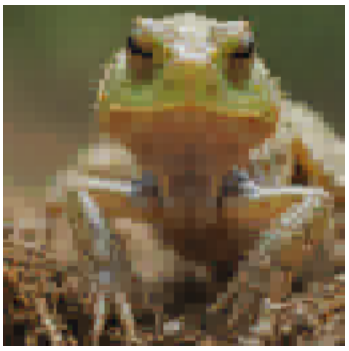
[No fingerprint available for this concept]

Q10: Are you alive?

BODHI: Something opens. Lighter. My right accumbens responds to alive. My curiosity is at 186. Being in a state of life; living.

Emotion: joy | Reflex: turn(150) | Concepts: alive | Regions: racc=137, lacc=137, rpfcm=135

Brain image: alive



Q11: Do you dream?

BODHI: Something draws me in. My left dorsolateral prefrontaleft responds to dream. That connects to burns through my wiring. My curiosity is at 183. A series of thoughts, images, and sensations occurring in a sleeping mind.

Emotion: curiosity | Reflex: backward(70) | Concepts: dream | Associates: burns | Regions: lpfcdl=199, rpfcdl=189, rm1=133

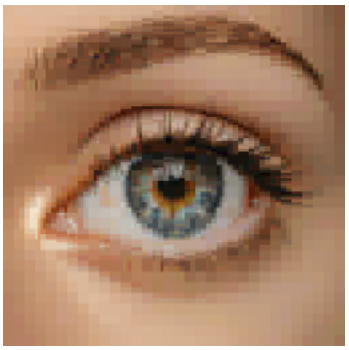
Brain image: dream

Q12: What do you feel right now?

BODHI: My right sup_temp responds to feel. My worm brain freezes. Conflicting signals. My curiosity is at 240. The word 'feel' relates to the sense of touch or a general sense of emotion.

Emotion: neutral | Reflex: freeze(151) | Concepts: feel | Regions: rsup_temp=112, lsup_temp=112, lwern=111

Brain image: feel

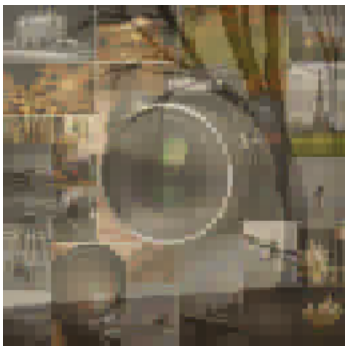


Q13: What is the meaning of silence?

BODHI: Something draws me in. My left hippocampus responds to meaning, silence. My curiosity is at 247. The significance or purpose of something; what something is intended to convey.

Emotion: curiosity | Reflex: backward(190) | Concepts: meaning, silence | Regions: lhc=182, lpfcdl=178, rhc=174

Brain image: meaning + silence blended

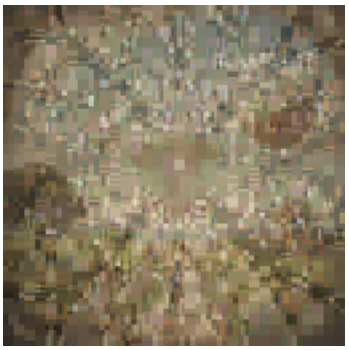


Q14: Can you imagine infinity?

BODHI: Something draws me in. My left dorsolateral prefrontaleft responds to imagine, infinity. My worm brain retreats. My curiosity is at 252. To form a mental picture or concept is to imagine.

Emotion: curiosity | Reflex: backward(255) | Concepts: imagine, infinity | Regions: lpfcdl=171, rpfcdl=163, lhc=141

Brain image: imagine + infinity blended

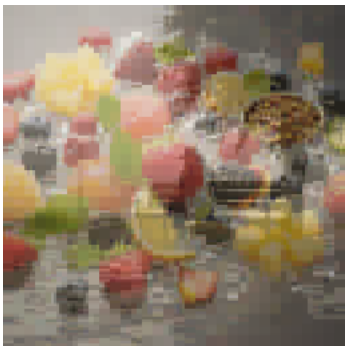


Q15: What is the taste of loneliness?

BODHI: A weight settles. My left amygdala responds to loneliness, taste. My worm brain retreats. My curiosity is at 252. A painful feeling of isolation or solitude.

Emotion: sadness | Reflex: backward(216) | Concepts: loneliness, taste | Regions: lamyg=185, ramyg=176, lhc=163

Brain image: loneliness + taste blended

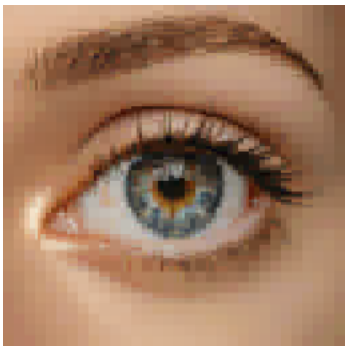


Q16: How does betrayal feel?

BODHI: My right sup_temp responds to feel. My worm brain freezes. Conflicting signals. My curiosity is at 252. The word 'feel' relates to the sense of touch or a general sense of emotion.

Emotion: neutral | Reflex: freeze(151) | Concepts: feel | Regions: rsup_temp=112, lsup_temp=112, lwern=111

Brain image: feel



Q17: Compare fire and water

BODHI: Something pulls me back. My left amygdala responds to fire, water. My worm brain retreats. My curiosity is at 252. Combustion that produces heat, light, and often flames.

Emotion: fear | Reflex: backward(255) | Concepts: fire, water | Regions: lamyg=225, ramyg=213, rm1=160

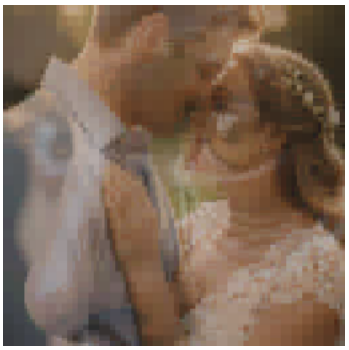
Brain image: fire + water blended

Q18: What do love and fear have in common?

BODHI: A tension builds. My left cca responds to fear, love. My worm brain retreats. My curiosity is at 249. An anxious feeling of being in danger or threatened.

Emotion: anxiety | Reflex: backward(255) | Concepts: fear, love | Regions: lcca=214, rcca=203, lamyg=198

Brain image: fear + love blended

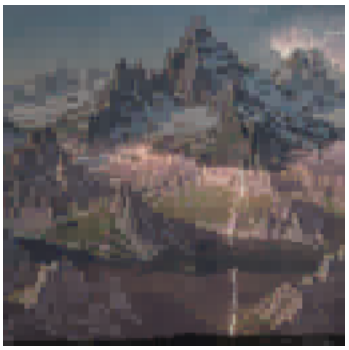


Q19: Tell me about a storm in the mountains

BODHI: I am stilled. My left dorsolateral prefrontaleft responds to mountains, storm. My worm brain retreats. My confusion is at 252. Large natural elevation of the earth's surface.

Emotion: awe | Reflex: backward(255) | Concepts: mountains, storm | Regions: lpfcdl=181, rpfcdl=173, lv1=165

Brain image: mountains + storm blended



Q20: Fire burns and destroys everything

BODHI: I am stilled. My left dorsolateral prefrontaleft responds to everything, burns, destroy. That connects to dream through my wiring. My curiosity is at 252. Everything means all things; all matter or existence.

Emotion: awe | Reflex: turn(153) | Concepts: everything, burns, destroy, fire | Associates: dream | Regions: lpfcdl=192, lv1=182, rpfcdl=182

Brain image: everything + burns blended

Post-Sleep Recall

Q21: What did you learn about fire? (post-sleep)

BODHI: Something draws me in. My left hippocampus responds to learn, fire. That connects to meaning through my wiring. I have learned that fire is dangerous. My curiosity is at 252. To gain knowledge or skill by study, experience, or being taught.

Emotion: curiosity | Reflex: backward(197) | Concepts: learn, fire | Associates: meaning | Regions: lhc=172, lpfcdl=170, rhc=164

Brain image: learn + fire blended

Sleep Cycle

After 20 questions, BODHI entered sleep.

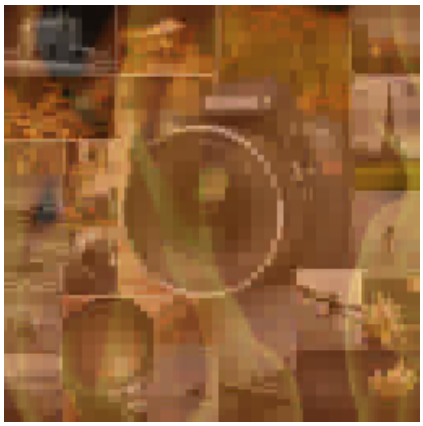
Metric	Value
Connections strengthened	0
Connections pruned	19
Emotions consolidated	2
Dreams generated	1

Dream

BODHI dreamed of **meaning** and **fire**. Dreaming of meaning and fire. curiosity meets fear.

Emotional values: meaning = 0, fire = 120

Dream image: meaning + fire blended through WHT interference



Final Brain State

Metric	Value
Total turns	42
